SECURITY AWARENESS

CDSE EDUCATION, TRAINING AND AWARENESS

At LIS Solutions, we strive to ensure our security program has the capability and highest safeguarding to protect sensitive and proprietary information. As a result, we are committed to meeting or exceeding DCSA's security standards and General Conformity. However, as security professionals cannot do it by ourselves, we rely on you as our first line defense against our adversaries.

You might be wondering how you can be a better security professional or how you can advance your security knowledge? Luckly, we have the tools and resources to provide you with the knowledge and the education that you need through the Center for Development of Security Excellence (CDSE).

The CDSE provides products and services to support the professional development for cleared and uncleared individuals. They offer training, education, certification, and events that improve the workforce's skills and knowledge.

We highly encourage our staff and vendors to access the CDSE website: **https://www.cdse.edu/** where you will gain access to the following security related resources:

◗ Case Studies

◗ Job Aids

◗ Games

◗ Security Short Videos

◗ Toolkits

◗ Future Webinars and Conferences

We also recommend setting up access to the Security Training, Education, and Professionalization Portal (STEPP) where you can learn more about security education and training at **https://cdse.usalearning. gov/local/pwt_privacy_policy/view.php**. With the help of these tools, you will be able to have a better understanding of what, how, why and when adversaries target sensitive information.

Below are the most common security trainings that we recommend our staff and vendors complete to enhance their security awareness:

◗ **DoD Mandatory Controlled Unclassified Information (CUI) Training** (usalearning.gov) **https:// securityawareness.usalearning.gov/cui/index.html**

◗ **OPSEC Awareness for Military Members, DOD Employees and Contractors** (usalearning.gov) **https://securityawareness.usalearning. gov/opsec/index.htm**

LIS
Solutions
Analyze. Inform. Empower.

- **Thwarting the Enemy: Providing Counterintelligence and Threat Awareness to the Defense Industrial Base** (usalearning.gov) **https://securityawareness.usalearning.gov/thwarting/index.htm** *45 minutes*

- **Insider Threat Awareness** (usalearning.gov) **https://securityawareness.usalearning.gov/itawareness/index.htm** *60 minutes*

- **Cyber Awareness Challenge** – DoD Cyber Exchange **https://public.cyber.mil/training/cyber-awareness-challenge/** *60 minutes*

- **Identifying and Safeguarding Personally Identifiable Information (PII)** (usalearning.gov) **https://securityawareness.usalearning.gov/piiv2/index.htm** *60 minutes*

Finally, CDSE's professional development opportunities allow individuals to choose a learning path that works for them and their interests in furthering their security education. Whether you are looking to expand your security education, or keep up with the latest security policies, the CDSE continuously strives to ensure you have the tools and resources needed to maintain a high-level security education that can address our Nation's security challenges. If you have further questions or concerns, you can always reach out to your LIS Security Professionals at **security@lissol.com**.
